Professional Summary

I'm a dedicated and adaptable tech enthusiast with a background in Computer Science and ongoing Master's studies in Project Planning and Management. Over the past few years, I've gained experience working with real-world systems—like developing a full Security Management System for local government and contributing to remote internships in web development and digital marketing. I'm comfortable working with tools like Git, MySQL, XAMPP, and modern programming languages including JavaScript, PHP, and Python. I've also built my own professional portfolio website and regularly share useful tech blogs.

Education

Master of Project Planning and Management
The Unity University, Hargeisa – Ongoing

Bachelor of Computer Science
The Unity University, Hargeisa– Graduated October 2024 (English-Taught)

Professional Experience

Teacher – Nurain Primary School, Hargeisa
